VISITORS AND COMMUNICATIONS.

A. MIKE TEMP, TOSTRUD & TEMP, S.C. Mike Tostrud, Tostrud & Temp, S.C. was present to provide an overview of the 2009 audit report. Tostrud began his presentation with a summary of how the audit report is put together. Tostrud then discussed the following components of the report over the span of an hour and a half: Independent Auditor's Report, Management's Discussion and Analysis, Basic Financial Statements, Supplemental Information, and Compliance Reports. Overall, Tostrud reported that the City will want to work to bring the general and sewer funds back into the black. An option available to get the general fund back to a positive balance would be to make a permanent transfer from the light fund. He went on to state that the Council may also want to consider increasing sewer rates to help offset the costs associated with infrastructure upgrades.

B. ADMINISTRATIVE COORDINATOR TOPICS.

1. CONCRETE QUOTES FOR FIRE BARN APRON. Administrative Coordinator Mike Gerardy shared that he obtained two quotes for concrete work in front of the fire barn. Gerardy noted that \$15,000 was budgeted for this improvement. Discussion ensued. A motion was made by Member Lemke, seconded by Member Perry to proceed with the lowest bid obtained for 82 feet in length of concrete work in front of the fire barn in addition to the replacement of a fire hydrant. All members present voted in favor and the motion was declared carried.

2. AIR CONDITIONING UNITS AT CITY HALL. Administrative Coordinator Gerardy shared an estimate obtained from a local plumber to install a new air conditioning unit at City Hall as two of the window units are not working properly. No action was taken as there were no monies budgeted to replace the air conditioning units at City Hall. This item will be considered for inclusion in the 2011 budget.
3. SEWER SYSTEM CONNECTION REQUEST. Administrative Coordinator Gerardy stated that an individual who lives on the edge of City limits has inquired about connecting to the City's sewer system as his septic system is in need of repairs. Mayor Burns asked if there was an agreement made when the lift station property was gifted that contained specific provisions in which property owners that connect to the lift station have to abide by. Member Vick inquired as to whether the City owned the land in which the lift station resides. Gerardy will look into these issues and report back at an upcoming meeting.
4. SOUTH STREET SEWER UPDATE. Administrative Coordinator Gerardy informed Council that Davy Engineer Mike Davy recommended that the Grant and Lincoln Street improvements be left out of the South Street Sewer Project and instead be included in an upcoming infrastructure project as a total reconstruction is needed versus only installing a liner. Gerardy also noted that he has a meeting on Thursday morning at 9:00 a.m. to discuss coordinating the South Street Sewer Project with the Houston County Justice Center Project.

D. COMMUNICATIONS.

1. ACE Notice.
2. League of Minnesota Cities Notice Concerning an Increase for 2011 Dues.
